CONTENTS OF VOLUME 15

Volume 15, No. 1, 1983

Editorial—Charles M. Tipton ii

ACSM 1983 Annual Meeting Information iii

Directions—1983

Exercise, health, and aging: a need for more information
John O. Holloszy 1

Biomechanical and biochemical synthesis
Ronald F. Zernicke 6

Knee ligamentous injury in sports: the past, present, and future
William G. Clancy, Jr. 9

Temperature regulation during exercise: directions—1983
Carl V. Gisolfi 15

Body composition in sport and exercise: directions for future research
Jack H. Wilmore 21

Wolffe Memorial Lecture

The energetics of obesity
George A. Bray 32

Brief Review

Ammonia metabolism in exercise and fatigue: a review
B.J.C. Mutch and E.W. Banister 41

Original Investigations

Delayed-onset muscular soreness and plasma CPK and LDH activities after downhill running
James A. Schwane, Scarlet R. Johnson, Carol B. Vandenakker, and Robert B. Armstrong 51

Effect of strength training upon motoneuron excitability in man
D.G. Sale, J.D. MacDougall, A.R.M. Upton, and A.J. McComas 57

Effects of lifting rate on elbow torques exerted during arm curl exercises
James G. Hay, James G. Andrews, and Christopher L. Vaughan 63

Heart rate indices of the anaerobic threshold
Jeffrey Dwyer and Ronald Bybee 72

Heart rate and sweat rate responses associated with exercise-induced hypervolemia
Victor A. Convertino 77

An evaluation of five indices of physical working capacity in children
Robert H. DuRant, E. Victoria Dover, and Bruce S. Alpert 83

Position Statement on Proper and Improper Weight Loss Programs ix

Information for Authors xiv

Volume 15, No. 3, 1983

Letters to the Editor ix

Brief Review

The regeneration of skeletal muscle fibers following injury: a review
Bruce M. Carlson and John A. Faulkner 187

Original Investigations

Biomechanical measures of muscular effort
James G. Andrews 199

Behavioral assessment in youth sports: coaching behaviors and children's attitudes
Ronald E. Smith, Nolan W.S. Zane, Frank L. Smoll, and David B. Coppel 208

Body composition of oligo/amenorrheic athletes
Karen A. Carlberg, Maire T. Buckman, Glenn T. Peake, and Marvin L. Riedesel 215

Biological determinants of the sex difference in 12-min run performance
Phillip B. Sparling and Kirk J. Cureton 218

Arm cranking and wheelchair ergometry in elite spinal cord-injured athletes
John R. Wicks, Neil B. Oldridge, Bonnie J. Cameron, and Norman L. Jones 224

The effect of physical conditioning on serum lipids and lipoproteins in white male adolescents
Charles W. Linder, Robert H. DuRant, and Ormonde M. Mahoney 232

Effect of glycerol feeding on endurance and metabolism during prolonged exercise in man
J.M. Miller, E.F. Coyle, W.M. Sherman, J.M. Hagberg, D.L. Costill, W.J. Fink, S.E. Terblanche, and J.O. Holloszy 237

Maintenance of the adaptation of skeletal muscle mitochondria to exercise in old rats
J.C. Young, M. Chen, and J.O. Holloszy 243

The mechanics of foot action during the golf swing and implications for shoe design
Keith R. Williams and Peter R. Cavanagh 247

A mechanical analysis of a special class of rebound phenomena
James G. Andrews 256

Prospective Study

Soccer injuries and their mechanisms: a prospective study
Jan Ekstrand and Jan Gillquist 267

Volume 15, No. 4, 1983

Letters to the Editor ix

Original Investigations

Effects of training on indices of iron status of young female cross-country runners
Lucinda A. Frederickson, Jacqueline L. Puhl, and William S. Runyan 271

Effect of acute induced metabolic alkalosis on 800-m racing time
D. Wilkes, N. Gledhill, and R. Smyth 277

Dysrhythmia detection in myocardial revascularization surgery patients
Rosemary P. Dolatowski, Ray W. Squires, Michael L. Pollock, Carl Foster, and Donald H. Schmidt 281

Physiological determinants of endurance performance as studied in competitive racewalkers
James M. Hagberg and Edward F. Coyle 287

Specificity of physiologic adaptations resulting from ice-hockey training
W.B. Daub, H.J. Green, M.E. Houston, J.A. Thomson, I.G. Fraser, and D.A. Ranney 290

Responses to submaximal and maximal arm cycling above, at, and below heart level
Thomas D. Cummins and L. Bruce Gladden 295

Mechanical efficiency of positive work in running at different speeds
Akira Ito, Paavo V. Komi, Bertil Sjödin, Carmelo Bosco, and Jan Karlsson 299

An estimation of the velocities of three take-off phases in 18-m triple jump
Senshi Fukashiro and Mitsumasa Miyashita 309

Use of separate hand locations to calculate ground reaction force exerted on a vaulting pole
Jesús Dapena and Teresa Braff 313

Time course of lung volume changes during prolonged treadmill exercise
Peter A. Farrell, Michael B. Maron, Lyle H. Hamilton, Michael G. Maksud, and Carl Foster 319

Descriptive Study

Leg muscle pH following sprint running
D.L. Costill, A. Barnett, R. Sharp, W.J. Fink, and A. Katz 325

Symposium

Preface to Exercise and Triacylglycerol Metabolism
Lawrence B. Oscai 330

Hormonal regulation of myocardial lipolysis
Warren K. Palmer 331

Type L hormone-sensitive lipase hydrolyzes endogenous triacylglycerols in muscle in exercised rats
Lawrence B. Oscai 336

Influence of exercise on chylomicron triacylglycerol metabolism: plasma turnover and muscle uptake
Ronald L. Terjung, Brenda G. Mackie, Gary A. Dudley, and Hanna Kaciuba-Uscilko 340

Policy Statement Regarding the Use of Human Subjects and Informed Consent xi

Volume 15, No. 5, 1983

Original Investigations

Adaptations of forearm circulation to varied intensities and sets of heavy exercise
Robert W. Haslam and Richard B. Cobb 349

Effects of endurance training on coronary resistance in dogs
Rita A. Carey, William P. Santamore, John J. Michele, and Alfred A. Bove 355

Maximal exercise during hypobaric hypoxia (447 Torr) in moderate-altitude natives
Carl M. Maresh, Bruce J. Noble, Kenneth L. Robertson, and Wesley E. Sime 360

Gastric-emptying characteristics of two glucose polymer-electrolyte solutions
Robert S. Sawka, Virginia M. Vivian, Edward L. Fox, and Robert L. Bartels 366

The freely-chosen swimming stroke rate in a maximal swim and on a biokinetic swim bench
Ian Swaine and Thomas Reilly 370

The effects of shoe design parameters on rearfoot control in running
T.E. Clarke, E.C. Frederick, and C.L. Hamill 376

Spline solution to terminal zero acceleration problems in biomechanical data
Sally J. Phillips and Elizabeth M. Roberts 382

Mechanical analysis of racket and ball during impact
Y. King Liu 388

Statistical Study

The effects of exercise on blood lipids and lipoproteins: a meta-analysis of studies
Zung Vu Tran, Arthur Weltman, Gene V. Glass, and Dale P. Mood 393

Methodological Study

Estimation of energy expenditure by a portable accelerometer
Henry J. Montoye, Richard Washburn, Stephen Servais, Andrew Ertl, John G. Webster, and Francis J. Nagle 403

Symposium

Preface to Weightlessness and the 1980s
Charles M. Tipton 408

Alterations in calcium homeostasis and bone during actual and simulated space flight
T.J. Wronski and E.R. Morey 410

Effects of disuse on the structure and function of skeletal muscle
Frank W. Booth and Philip D. Gollnick 415

Fluid shifts in vascular and extravascular spaces during and after simulated weightlessness
Alan R. Hargens 421

Cardiovascular adaptation to weightlessness
C. Gunnar Blomqvist 428

The endocrine and metabolic responses to space flight
Carolyn S. Leach, Steven I. Altchuler, and Nitza M. Cintron-Trevino 432

Considerations for exercise prescriptions in future space flights
Charles M. Tipton 441

Information for Authors xi

Policy Statement Regarding the Use of Human Subjects and Informed Consent xiv

Volume 15, No. 6, 1983

Original Investigations

Role of exercise in prevention of involutional bone loss
Virginia Brewer, Betty M. Meyer, Marjorie S. Keele, S. Jill Upton, and R.D. Hagan 445

Responses to continous and intermittent exercise in healthy and insulin-dependent diabetic children
Irene N. Sills, and Frank J. Cerny 450

Electromyographics changes during strength training and detraining
Keijo Käkkinen and Paavo V. Komi 455

Effects of intensity and duration of muscular exercise on delayed soreness and serum enzyme activities
Peter M. Tiidus and C. David Ianuzzo 461

Endurance improved by ingestion of a glucose polymer supplement
J.L. Ivy, W. Miller, V. Dover, L.G. Goodyear, W.M. Sherman, S. Farrell, and H. Williams 466

Differential effects of running and weight-lifting on the rat coronary arterial tree
Kwok W. Ho, Roland R. Roy, James F. Taylor, William W. Heusner, and Wayne D. Van Huss 472

An analysis of overground and treadmill sprinting
Barry A. Frishberg 478

Characteristics associated with running performance in young boys
Gary S. Krahenbuhl and Robert P. Pangrazi 486

Characteristics of national, divisional, and club male alpine ski racers
Stephen L. Brown and John G. Wilkinson 491

Physiological adjustments to higher- or lower-intensity exercise in elders
Dalynn T. Badenhop, Patrick A. Cleary, Stephen F. Schaal, Edward L. Fox, and Robert L. Bartels 496

Exercise respiratory pattern in elite cyclists and sedentary subjects
Lawrence J. Folinsbee, Eric S. Wallace, John F. Bedi, and Steven M. Horvath 503

A comparison of the training responses to aerobic dance and jogging in college females
Suzanne Milburn and Nancy Kay Butts 510

Effects of hypercapnia and hyperoxia on metabolism during exercise
T.E. Graham and B.A. Wilson 514

Salbutamol and treadmill performance in non-atopic athletes
D.C. McKenzie, E.C. Rhodes, D.R. Stirling, J.P. Wiley, D.W. Dunwoody, I.B. Filsinger, F. Jang, and A. Stevens 520

A category-ratio perceived exertion scale: relationship to blood and muscle lactates and heart rate
Bruce J. Noble, Gunnar A.V. Borg, Ira Jacobs, Ruggero Ceci, and Peter Kaiser 523

The effect of varied hip angles on the generation of internal tibial rotary torque
Thomas A. Oshimo, Tracy A. Greene, Gail M. Jensen, and Rosalie B. Lopopolo 529

Kinematic analysis and efficiency estimate of intercollegiate female rowers
William N. Nelson and Carol J. Widule 535

Resultant tennis ball velocity as a function of off-center impact and grip firmness
Mark D. Grabiner, Jack L. Groppel, and Kevin R. Campbell 542

Statistical Study

The use of multivariate analysis of variance in physiological research: the two-group case
Allan P. Donner and David A. Cunningham 545

Methodological Study

A comparison of incremental exercise tests during cycle and treadmill ergometry
Ronald D. Fairshter, John Walters, Kym Salness, Michael Fox, Vu-Dinh Minh, and Archie F. Wilson 549

AUTHOR INDEX FOR VOLUME 15, 1983

Alpert, B.S. 83
Altchuler, S.I. 432
Andrews, J.G. 63, 199, 256
Armstrong, R.B. 51
Badenhop, D.T. 496
Banister, E.W. 41
Barnett, A. 325
Bartels, R.L. 366, 496
Bedi, J.F. 503
Blomqvist, C.G. 428
Booth, F.W. 415
Borg, G.A.V. 523
Bosco, C. 299
Bové, A.A. 355
Braff, T. 313
Bray, G.A. 32

KEY WORD INDEX FOR VOLUME 15, 1983

Accelerometer, portable 403
Acid-base 277, 325
Acid-base balance 514
Adolescents (see children) 232
Aerobic capacity 218, 496
Aerobic dance 510
Aerobic exercise 232
Aerobic exercise and space flight 441
Aerobic metabolism 243
Aerobic training 271
Aging 1, 445
Alkalosis 277
Alpine skiing 491
Altitude, low, moderate, and high 360
Altitude, residence 360
Amenorrhea 215
Ammonia 41
Anaerobic capacity 491
Anaerobic performance 277
Anaerobic threshold 360, 549
Anaerobic threshold, bicycle 72
Anaerobic threshold, heart rate at 72
Analysis, multivariate 545
Analysis of variance 545
Anemia, sports 271
Anesthetics 187
Ankle injuries 267
Anthropometry 21
Appetite, alterations with exercise 21
Arm cranking 224
Arm curl exercise 63
Arm cycling 295
Asthma, exercise-induced 520
Athletic profiles 21
Athletes, elite 491
Athletes, female 215, 271, 535
Athletes, spinal-cord injured 224
Atrophy, muscle 415
Attitudes, player 208
Autografts 187
Ball velocity 388, 542
Barbell 63
Beta-sympathomimetic medication 520
Beverages 366
Bicycle anaerobic threshold 72
Biochemistry, tissue 6
Biokinetic bench 370
Biomechanics 199, 247, 313, 376, 382, 535
Blood and muscle lactate 486, 514, 523
Blood cells, white 51
Blood flow, myocardial 355
Blood flow, peak and post-exercise 349
Blood flow, skin 15
Blood pressure 421
Blood volume, central 319
Body composition 21, 215, 218
Body composition alterations with training 21
Body fluid distribution 428
Bone formation 410
Bone loss 410, 445
Bone mineralization 445
Bone resorption 410
Breathing pattern 503
Calcium homeostasis 410
Carbohydrates, dietary 366
Carbon dioxide 514
Cardiac function 428
Cardiac output 295
Cardiac rehabiliation 281
Cardiovascular control mechanisms 428
Cell injury 187
Central blood volume 319
Children (see adolescents) 83, 208, 450, 486
Cholesterol, serum 393
Cinemato-graphical analysis 478
Cinematography, three-dimensional 247, 542
CO_2 rebreathing 295
Coaching behaviors 208
Colloid osmotic pressure 421
Computer 313
Conditioning 496
Contractile properties 187
Coronary circulation 355
Coronary arterial tree 472
Coronary artery disease 1
Corticosteroids 410
Cortisol 450
Connective tissues 6
Creatine phosphokinase (CPK) 51
Cross-country runners, women 271
Cyclic AMP 331
Cycling 290
Cyclists 503
Detraining 455
Diabetes mellitus 1, 450
Dietary carbohydrates 366
Differentiated ratings 523
Digital filtering 382
Distance running 218
Diuresis 421
Dogs 355
Drive phase (rowing) 535
Dysrhythmia detection 281
Eccentric muscle contractions 51
Edema prevention 421
Efficiency 287, 299
Elastic energey 299
Elbow torques 63
Elders 496
Electrocardiography, ambulatory 281
Electromyography 455
Embryogenesis 187
Endocrine 432
Endurance, muscular 491
Endurance running 472
Energy, elastic 299
Energy, mechanical 410
Energy expenditure 403
Energy metabolism 340
Enzyme purification 331
Enzymes, mitochondrial 243
Enzymes, serum 461
Epinephrine 336
Ergogenic aid 277
Ergometer, cycle 237, 514, 549
Ergometer, rowing 535
Ergometer, wheelchair 224
Estimation of take-off velocity 309
Exercise 15, 41, 51, 215, 243, 325, 355, 403, 445, 503, 520
Exercise, continuous 450
Exercise, dynamic 349

Exercise, endurance 237
Exercise, exhaustive 187
Exercise, high- and low-intensity 496
Exercise, intermittent 450
Exercise, muscular 461
Exercise, specificity of 441
Exercise capacity 83
Exercise metabolism 51, 195
Exercise testing 224
Exercise training 1, 77, 281, 355
Exercise and weightlessness 441
Exercise-induced asthma 450
Exercise-induced hypervolemia 77
Exhaustion 349, 466
Exhaustive exercise 187
External force 309
Factors, central and local 523
Fat ..... ix (issue 1)
Fat metabolism 514
Fatigue 41
Female athletes 215, 271, 535
Fiber types 523
Fluid balance 421
Fluid therapy 366
Foot action 247
Force 199
Forced vital capacity 319
Forearm circulation 349
Free erythrocyte porphyrin 271
Free fatty acids 340
Gastric emptying 366
Glucagon 450
Gluconeogenesis 237
Glucose 450
Glucose polymer-electrolyte solutions 366, 466
Glycerol feeding 237
Glycogen depletion 237
Golf 247
Graded exercise testing 281
Grip firmness 388, 542
Ground reaction force 313
Growth hormone 450
Handball 256
Head-down tilt 421
Health maintenance 1
Heart 472
Heart lipase 331
Heart rate 77, 224
Heart rate at anaerobic threshold 72
Heart rate range 496
Heart rate, target 72
Hemoglobin 271
High- and low-intensity training 290
High-density lipoprotein 232
High-density lipoprotein-cholesterol (HDL-C) 393
Hop serve 256
Hormones 331, 432, 450
Hypercalciuria 410
Hypercapnia 514
Hyperoxia 514
Hypertension 1
Hypertrophy 455
Hypervolemia, exercise-induced 77
Hypobaric chamber 360
Hypoglycemia 237, 466
Hypogravity 432
Hypokinesia 415
Hypoxia 360
Ice hockey and ice skating 290
Immobilization, limb 415
Impact 256, 388, 542
Impulsive torque 256
Injury, ankle 267
Injury, cell 187
Injury, knee 9, 267
Injury, soccer 267
Injury mechanisms, prevention, and sequence 267
Internal tibial rotation 529
Interstitial fluid pressure 421
Iron, serum 271
Iron status 271
Iron-binding capacity 271
Isokinetic strength 491
Jogging 510
Ketones 450
Kinematic analysis 535
Kinematics 376
Knee 9, 529
Knee injuries 267
Lactate dehyrogenase (LDH) isoenzymes 51
Lactate, blood and muscle 486, 514, 523
Lactate, plasma 360
Lactate threshold 287
Lactic acid 325
Leadership 208
Leg volume 421
Lifting rates 63
Ligament 9
Limb immobilization 415
Linear and angular impulse 199
Linear and torsional coefficients of restitution 256
Lipolysis 331
Lipoprotein, high-density 232
Lipoprotein, very low-density 340
Lipoprotein cholesterol, high- and low-density 393
Lipoprotein lipase 336, 340
Lung volume changes 319
Marathon, simulated 319
Maximal and sub-maximal work 290
Maximum oxygen uptake (see $\dot{V}O_{2max}$)
Mechanical energy 199
Mechanical unloading 410
Mechanical work 299
Mechanics 388
Menstrual disorders 215
Metabolism 237, 432
Metabolism, fat 514
Mitochondrial enzymes 243
Model 313
Modeling 410
Motoneuron excitability 57
Mountain sickness, acute 360
Multivariate analysis 545
Muscle atrophy 415
Muscle contractions, eccentric 51
Muscle fiber types 340
Muscle water content 421
Muscular endurance 491
Muscular exercise and soreness 461
Myocardial blood flow 355
Myocardial revascularization surgery 281
Neuromuscular junction 187

Obesity 32
Oligomenorrhea 215
Oncotic pressure 421
Oxygen uptake 403, 486, 503
Oxygen uptake, maximal (see $\dot{V}O_{2max}$)
Packed cell volume 271
Paraplegia 224
Peak blood flow 349
Perceived exertion 523
Perceptual methodology 523
Performance 287
Physical activity 403
Physical conditioning 232
Physical training 393
Physical work capacity, relative 83
Physically disabled 224
Physiologic adaptation 290
Plasma lactate 360
Plasma volume 77
Post-exercise blood flow 349
Power 199
Pronation 376
Psychomotor performance 466
Purine nucleotide cycle 41
Race, 800-m 277
Racewalking 287
Rat 243, 336, 472
Rate of living 1
Rearfoot control 376
Rebound phenomena 256
Reflex potentiation 57
Rehabilitation 224, 529
Reinnervation 187
Remodeling 410
Revascularization 187
Rowing ergometer and shell 535
Rowing, sweep 535
Runners 376
Running 218, 299, 376, 445, 486
Running, distance 218
Running, downhill 51
Running, endurance 472
Running economy 218
Salbutamol 520
Satellite cells 187
Self-esteem 208
Serum cholesterol 393
Serum enzymes 461
Serum iron 271
Serum lipids and lipoproteins 232
Set-point 15
Sex difference 218
Shell (rowing) 535
Shoe design 247
Shoes, sport 376
Simulated marathon 319
Simulated swimming 370
Simulation 313
Skeletal age 486
Skeletal muscle 243, 421
Skin blood flow 15
Ski racers, alpine 491
Smoothing 382
Soccer injuries 267
Soreness, muscular 461
Space flight (actual and simulated) 410, 432, 441
Splines 382
Sports 224
Sports anemia 271
Sports trauma 9
Spring constant 299
Sprinting 325, 478
Statistical methods 545
Strength training 57, 455
Stress theory of aging 1
Striking mass 542
Stroke rate 370
Subcutaneous tissue 421
Sweating 15
Sweat rate 77
Swim bench, biokinetic 370
Swimming (actual and simulated) 370
Synthesis 6
Take-off velocity, estimation of 309
Team solidarity 208
Temperature regulation 15
Tennis 388, 542
Tetraplegics 224
Three-dimensional cinematography 247
Tibial rotation, internal 529
Tidal volume 503
Tissue, connective and subcutaneous 421
Tissue biochemistry 6
Tissue mechanics 6
Torque 199
Torque, impulsive 256
Torques, elbow 63
Training 510
Training, high- and low-intensity 290
Training, strength 57, 455
Training, weight 63
Training guideline for women 72
Training intensity 72
Training and space flights 441
Training threshold 72
Transferrin saturation 271
Transplantation 187
Trauma, sports 9
Treadmill 319, 478, 520, 549
Treadmill running, prolonged 319
Triacylglycerols 330, 336, 340
Triglyceride 393
Triple jump (18 m) 309
Type L hormone-sensitive lipase 336
Vaulting pole 313
Ventilation 224, 503
Very low-density lipoproteins 340
$\dot{V}O_{2max}$ 77, 224, 370, 491, 496, 510, 549
$\dot{V}O_{2peak}$ 295
Weight loss ..... ix (issue 1)
Weight machine 63
Weight training 63
Weight-lifting 472
Weightlessness 408, 410, 415, 428, 432
Weightlessness and exercise 441
Wheelchair ergometry 224
White blood cells 51
Work, maximal and submaximal 290
Work, mechanical 299
Wrist curl exercise 349
